

**We are implementing a  
new electronic health  
record system to improve  
patient care.**

**Thank you for your  
patience during this  
transition.**

**During system installation or upgrades, you may experience delays. For example, it may take a few extra minutes to schedule an appointment, see the doctor, or get answers to your billing questions. You may be asked to update your patient information, including medical history and coverage information, for our files. These delays are temporary.**

**Thank you for your patience.**
